

F33 Car Wash

Specifications & Properties

Flash Point: N/A

Physical State: Light blue granular powder

Flammable: No

Description

F-33 CAR WASH This product is a quality blue granular compound. It is a mildly alkaline, biodegradable product and is safe on all car paint surfaces and car wash equipment. It is ideally suited for use with pressure wash equipment and may also be used in manual cleaning operations. It contains active detergents, water conditioners, emulsifiers and rinsing agents for effective removal of dirt, oil and stubborn road film

Features & Benefits

- Superior rinsing profile
- Biodegradable
- Economical concentrate
- Safe on all surfaces

Applications

- Automotive and Car Wash Equipment

Directions

F-33 CAR WASH When used with pressure wash equipment use 2-3 grams per litre of water (1/3 – 1/2 oz/gallon). Best results are obtained by using hot water. Wet the entire surface to be cleaned with wash solution. Clean each section thoroughly. Rinse with cold water and allow to drain dry. When using a concentrate to be further diluted with water, add up to 30 grams of product per litre of hot water (5 oz/gallon). For manual cleaning use 3 - 6 grams per litre of warm water (½ - 1 oz/gallon). Wash using a brush, sponge or lambswool mitt. Rinse with cold water and allow to drain dry.

Packaging & Handling

is available in 20L, 205L containers. Product can be stored in high-density polyethylene, polypropylene or fiberglass containers.
