

Power Wash

Specifications & Properties

Flash Point: N/A

Physical State:

Flammable: No

Description

A powerful, concentrated, liquid alkaline cleaner designed to effectively remove grease, oil, carbon, tar and road films from parts, equipment and engines. Contains caustic soda and IS NOT intended for use on aluminum, zinc and other soft metals. Avoid contact with painted surfaces. Does not deposit sediment in solution tanks or on valves.

Features & Benefits

- Heavy duty industrial cleaner
- Caustic content for added power
- Phosphate free
- Superior grease cutting action
- excellent concrete cleaner

Applications

Any application where surfaces will not be affected by caustic soda contact and extra strength grease cutting and cleaning is required. Equipment Engines Heavy Machinery Floors.

Directions

Heavy Grease • Dilute with 1 - 4 parts water. Spray or wipe on. Rinse or wipe clean. General Cleaning - Dilute with 1 - 10 parts water, spray or wipe on. Rinse or wipe clean. Steam Cleaners/Pressure Washers - Dilute with 10-80 parts water and spray on. Rinse or wipe clean.

Packaging & Handling

POWER WASH is available in 20 litre, 205 litre containers.
